### Course Objectives

- To create awareness about problem solving through Visual programming and Python programming languages.
- To introduce function-oriented programming paradigm through Python.
- To train in development of solutions using modular concepts.
- To teach practical Pythonic solution patterns.

### About the Trainers

Well experienced resource persons from industry and reputed institutions.

### Eligibility

The programme is open for the faculty members of Engineering colleges who are to deal with the subject for first year students.

It is mandatory to draft one senior staff member from each college under the jurisdiction of JNTUA.

### Accommodation & Boarding

Accommodation and boarding is provided to the participants at JNTUA CEA hostels at free of cost. No participation fee. TA/DA will not be paid to the participants.

### Other details

Laboratory classes and interactive sessions will be part of the programme. Participation certificate will be issued only on completion of the course requirements. It is mandatory for the participants to come along with their laptops for this FDP.

The registration form (scanned copy may be mailed to avoid delay) is to be sent to the Convener by **13-05-2019**. Selection will be intimated to the participants by 18-05-2019.
