REPORT ON MOTIVATIONAL PROGRAM

21-02-2021

Motivation is not only important in its own right; it is also important predictor of learning and achievement. Students who are motivated to learn persist longer, produce higher quality effort, learn more deeply, and perform better in classes and standardized tests.

Finding ways to increase motivation is crucial because it allows us to change behaviour, develop competencies, be creative, set goals, grow interests, make plans, develop talents, and boost engagement.

JNTUACEK has planned this plan of action in order to encourage students with respect to their studies and to achieve the great among their goals. Students have a chance to explore the world only at this age. so, it is every student's dream to achieve their goal.

By considering these things, college initiated a motivational program. The well-known motivational speakers are invited and everyone had a good time over there with their words.
