CARRER PROSPECTS

Date & Time : 11:00AM, 13th December 2021

Venue : ECE Department, JNTUACEA, Anantapur

No of students participated: 50

On December 13, 2021, as part of JNTUA university's 75th platinum jubilee celebrations, a one-day eventon "Carrer Prospects" was held at the ECE department of Jawaharlal Nehru Technological University Anantapur. Mr. Arjun Harinag Senior Design Verification Lead at Tata Consultancy Sevices spoke about the "Carrer Prospects" for Electronics and Communication Engineering Students. Dr. G. Mamatha, Co-ordinator of the Skill Development and Incubation Centre organized the event.

Objective :

- To Improve your interpersonal and communication skills
- To learn how to use some of the industrial-grade applications.
- To Gain hands-on experience with academic principles while honing your practical skills.
- To Develop initiatives based on the latest technologies to stay current.
- To Participate in further accredited training programmes to enhance your resume.
- To Improve your leadership and teamwork skills.

Outcomes :

- Students learned about the scope and opportunities available to ECE students.
- Students had a greater knowledge of the types of technologies that an ECE engineer can work on.
- Students have a firm understanding of the skills that an ECE student should learn in order to increase their job prospects.
