PRESENT: Prof. K. RAMANAIDU: PRINCIPAL**

TEQIP-III

Procs. No. TEQIP-III/NPIU/Academics/ECE/1.3-2(iv)/35/2018-19

Date:20-02-2019.

Sub: JNTUA College of Engineering Ananthapuramu- JNTUACEA - TEQIP-III-
Academics-Permission to conduct Three-Day Training Programme on "Machine
Learning and Deep Learning using MATLAB" from 11-03-2019 to 13-03-2019 -
Orders - Issued.

Ref: i) Letter dt: 20-02-2019 of Dr. G. Mamatha, Asst. Professor of ECE

Dr. G. Mamatha, Asst. Professor of ECE has submitted a letter requesting the
Principal to permit to conduct Three-Day Training Programme on "Machine Learning and
Deep Learning using MATLAB" from 11-03-2019 to 13-03-2019 and requested to permit to
meet the expenditure from TEQIP-III funds.

Title of the Program	:	Three-Day Training Programme on "Machine Learning and Deep Learning using MATLAB"
Resource Person(s)	:	Capricot Technologies, Hyderabad
Conducted by	:	Dept. of ECE, JNTUACEA
Duration of the Programme	:	11-03-2019 to 13-03-2019
Coordinator(s)	:	(1) Dr. G. Mamatha, Asst. Professor of ECE (2) Sh. Shankar Lal Sharma, HOD, Dept. of ECE, UCET, Bikaner

The requisition submitted is approved and the Principal is pleased to accord
permission to Dr. G. Mamatha, Assistant Professor of ECE to conduct the above said programme(s)
on the date(s) noted. The approximate expenditure to conduct the above said programme is Rs.
13,500/-. The expenditure will be met from TEQIP-III funds under Academics SC 1.3-2 (iv) head of
account.

She is requested to follow the rules and regulations in incurring the expenditure and requested
to submit the vouchers in original as per the guidelines provided by NPIU. She is also requested to
submit Photographs, list of participants, feedback reports etc., as per TEQIP-III norms in proforma
provided.

Encl:

- i. Proforma.
- ii. Guidelines.

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING
JNTUA COLLEGE OF ENGINEERING ANANTHAPURAMU**

Three day Faculty Development Programme on Machine Learning and Deep Learning using MATLAB

REPORT

A Three day Faculty development programme on Machine Learning and Deep Learning using MATLAB was successfully conducted in the Department of Electronics and Communication Engineering from 11th March to 13th March 2019. FDP was Sponsored by Capricot Technologies Private Limited in association with Mathworks and TEQIPIII.

The three day Faculty Development Programme was inaugurated on 11th March 2019 in the morning hours at VLSI lab in the Department of Electronics and communication Engineering by Lighting of the lamp by the Chief Guest, Prof.S. Srinivasa Kumar ,Vice chancellor JNTUA. A Warm welcome speech was delivered by program coordinator Dr.G.Mamatha, Assistant professor Department Of ECE. Prof. P Rammana Reddy , Head of the Department ECE highlighted the significance of Machine Learning & Deep Learning and its applications in the industry and academics during his speech. Prof .E .Keshavareddy, Vice Principal JNTUACE shared his views and the advantages of conducting FDP during his speech. The resource person for this program was Mr. Vinod Thomas,who is a Senior Training Engineer at Mathworks India Pvt Ltd Bengaluru Karnataka .

20 Participants from various Engineering colleges had registered for the FDP. The Course material on Machine learning as well as deep learning was distributed to all the registered candidates. The training programme had lectures and lab sessions. It covered various topics of Machine Learning & Deep learning. The lab sessions exposed the participants to real world issues and also enabled them to practice different tools available in Machine Learning.

On Day 1 contents covered were Introduction to Machine Learning which included different Data types, Data preparation, finding natural pattern in the data and building classification models, descriptive statistics and Inferential statistics which are most essential for any learning algorithms.

On Day 2 introduced different techniques of dimensionality reduction of data sets in order to improve and simplify machine learning models. The session also covered various regression models and evaluation of regression models. Session concluded with detailed description of creating neural network.

On Day 3 Deep learning with Matlab was introduced. Topic covered in the final day included image classification using pertained network, use of transfer learning to train customized classification networks, Interpreting Network behavior and build convolution network from scratch.

Highlights of all section was the emphasis on hands on training and the sessions had around 80 % Hands on training and the rest 20 % was theory.

The three day FDP concluded with a valedictory function which was conducted at VLSI lab during the closing hours on 13th March 2019. Few of the participants shared their wonderful experience during the FDP. The valedictory function came to a close with the vote of thanks by program Coordinator Dr. G. Mamatha Assistant Professor, (ECE Dept.)

3-DAY CAREER AWARENESS PROGRAM ON "INTERNET OF THINGS"

Date: 29th to 31th August 2017

About College

JNTUA College of Engineering (Autonomous), Ananthapuramu, an esteemed Engineering College in Andhra Pradesh was established in 1946 and has been growing continuously in size with respect to intake, faculty strength, number of academic programs offered and infrastructure. It is always committed to offer value-added instruction to widen the horizon of vision for the enrichment of technical education along with skill development.

About Department

The Department of Electronics and Communication Engineering is started in the year 1974; over four decades the department has produced high-quality Engineers who have occupied coveted positions in India and abroad. Sincerity, commitment, passion, and team work are the unique qualities of the department. PG programs were introduced during the year 2001, later the department acquired research capability. The department has well qualified faculty with a right blend of experience and knowledge sharable professionals.

About Collaborating Partners

Orange Research Labs

Orange Research Labs is a start-up research firm by the students of Padmasri Dr.B.V.Raju Institute of Technology. Our services are Workshops and Projects. Our streams are Artificial Intelligence and Swarm Intelligence. At present, i'm confined to Human Resource in Orange Research Labs. Orange Research Labs provides you the best range of virtual reality, game development, arduino, 3d printer, raspberry pi & robotics with effective & timely delivery. Our vision is to incubate 20 Startup's by the year 2020 through Boot Camps. Incubation is the process where we mentor, we research, we experience, we explore, we dream your thoughts and convert it into a productive startup.

Objectives of the Program

IOT is one of the world's most emerging and fastest growing technology and any technology available right now can be merged with IOT, hence students can have many possibilities as well as opportunities.

Topics Covered

- Introduction to Internet of Things (IoT)
- Scope of IoT in different domains Practical Case Studies
- Introduction to Raspberry Pi
- Getting Started with Raspberry Pi
- Python Basic Syntaxes
- Android APP Controlled Home Automation
- Data Analytics on Uploaded Data
- Deployment of Server – Client model
- mongoDB – the database enterprise
- How to deploy database on real-time cloud
