About College

JNTUA College of Engineering, (Autonomous) Anantapuramu stands aloft on a solid foundation of past glory and prestige. This college was started in the year 1946, under the post war reconstruction program and functioned at Guindy campus, Madras for two years and was shifted to Anantapur in 1948.

During the first 25 years of its existence, it was affiliated to the Madras and S V University and produced distinguished alumni, who are holding high positions, in India and abroad. The college became a constituent college of the former Jawaharlal Nehru Technological University, Hyderabad in 1972 and presently it is a constituent college of JNT University Anantapur since August 2008. The college has been growing continuously in size with respect to intake, faculty strength, number of academic programs offered and infrastructure.

About Department

The Department of Chemical Engineering was established in 1989 and has completed its Silver Jubilee celebration. It offers UG, PG, and Ph.D. programs and is accredited with National Board of Accreditation (NBA).

About FDP

The Classroom learning gives a special importance on understanding of theories while practical learning in the laboratory and workshop plays an important role for the students to study technical skills in the course. Laboratory and workshops mainly focus on the student aspects that creates a learning environment which provides the student with real time analysis to implement whatever have learnt theoretical can be put on laboratory scale. The laboratory and workshop classes become a bridge between theory and practice. The practical classes are to be taken into consideration for better understanding. Also make to learn the management skills during the conduct of a laboratory, since these practices creates each and individual student though process to establish any process industry or to be an entrepreneur. This FDP will provide a platform to understand the role of instructor for laboratory/workshop for the laboratory and workshop development.

Brief report on FDP

Faculty Development Programme on “Laboratory and Workshop learning skills in conducting practical classes” conducted in online mode from 15th to 20th February 2021. Laboratory and workshops mainly focus on the student aspects that creates a learning environment which provides the student with real time analysis to implement whatever have learnt theoretical can be put on laboratory scale. The laboratory and workshop classes become a bridge between theory and practice. The practical classes are to be taken into consideration for better understanding. Also make to learn the management skills during the conduct of a laboratory, since these practices creates each and individual student though process to establish any process industry or to be an entrepreneur. This FDP had provided a platform to understand the role of instructor for laboratory/workshop for the laboratory and workshop development.

Soft copy brochures were prepared well in advance and also shared with all the AICTE approved technical institutions. Total number of candidates registered for the programme is around 153 members through online. There are 41 number of participants have attended the programme. However, certificates were issued to only 41 participants as per the guidelines of AICTE who have cleared the assessment.
