APSSDC-Circular

All students are hereby advised that the APSSDC program "Fundamentals In Game Development Using Unity 3d & C#" will be held on July 13, 2019 to July 31, 2020, in the CSE R&D lab. As a result, I'm directing all the students who have signed up for this program to show up without fail.

G. Murali

In charge of APSSDC Program

PROGRAM REPORT

Program Name: Fundamentals In Game Development Using Unity3d & C#

Program Date: 13-07-2019 to 31-07-2020

Venue: JNTUA College of Engineering, Pulivendula

About the Program:

The workshop curriculum was designed to cover the following key topics:

- Introduction to Unity3D: An overview of the Unity3D game engine, its features, and the Unity editor interface.
- C# Fundamentals: Introduction to the C# programming language, including variables, data types, loops, conditional statements, and functions.
- GameObjects and Components: Understanding Unity's GameObjects and Components, and how they form the building blocks of game objects and behaviors.
- Scripting in Unity: Learning how to write C# scripts to control game behavior, handle player input, and create interactions.
- Physics and Collisions: Exploring Unity's physics engine and how to implement collision detection and response in games.
- User Interfaces (UI): Designing user interfaces for games using Unity's UI system.
- Game Design and Mechanics: Understanding game design principles and applying them to create engaging gameplay experiences.

Trainees Attended: 62

Participants Feedback:

Feedback was collected from participants at the end of the workshop. Overall, the response was overwhelmingly positive, with participants expressing satisfaction with the workshop content and delivery. Some common feedback points included:

- The workshop provided a clear and comprehensive introduction to game development with Unity3D and C#.
- Hands-on exercises were valuable in gaining practical experience and reinforcing learning.
- The instructors were knowledgeable, approachable, and supportive throughout the workshop.
- Participants appreciated the step-by-step approach in building games, making it suitable for beginners.

Conclusion:

The "Fundamentals in Game Development using Unity3D & C#" workshop provided participants with a strong foundation in game development principles and practical skills using the Unity3D game engine and C# programming language. The combination of theoretical instruction and hands-on practice contributed to the workshop's success in empowering participants to embark on their journey in the exciting world of game development.
