PROGRAM REPORT

Program Name: Amazon Web Services Technical Essential Workshop

Program Date: 11/09/2017

Venue: JNTUA College of Engineering, Pulivendula

About the Program:

The workshop typically covers the following key topics:

1. **Introduction to AWS:** An overview of AWS as a cloud computing platform, its global infrastructure, and the benefits of using AWS services.
2. **AWS Core Services:** An introduction to essential AWS services like Amazon EC2 (Elastic Compute Cloud), Amazon S3 (Simple Storage Service), Amazon RDS (Relational Database Service), Amazon VPC (Virtual Private Cloud), and more.
3. **Security and Compliance:** An explanation of AWS security measures, identity and access management (IAM), and best practices for securing your AWS resources.
4. **Scalability and Elasticity:** Understanding how AWS allows you to scale your applications and resources dynamically to meet changing demands.
5. **AWS Management Tools:** An overview of various tools available for managing and monitoring your AWS resources effectively.
6. **AWS Architecture Best Practices:** Guidance on designing well-architected applications on AWS, including cost optimization, performance, and reliability considerations.
7. **Case Studies and Hands-on Exercises:** Practical exercises and real-world case studies to help participants gain hands-on experience with AWS services.

Trainees Attended: 67

Participants Feedback:

Feedback was collected from participants at the end of the workshop. The overall response was positive, with 80% of participants expressing satisfaction with the workshop content and delivery. Some common feedback points included:

- The workshop provided a clear understanding of AWS and its services.
- Hands-on exercises were particularly helpful in gaining practical experience.
- The instructor's knowledge and presentation skills were commendable.
- Participants appreciated the real-world case studies that showcased AWS applications in various industries.
