APSSDC-Circular

All students are hereby advised that the APSSDC program "Architectural Modelling Using Revit Offline Training 2022-23" will be held on 01.06.2022, in the CSE R&D lab. As a result, I'm directing all the students who have signed up for this program to show up without fail.

G. Murali

PROGRAM REPORT

Program Name: Architectural modeling using Revit Offline training Workshop

Program Date: 01-06-2022

Venue: JNTUA College of Engineering, Pulivendula

About the Program:

The "Architectural Modeling Using Revit Offline Training Workshop" was a comprehensive program aimed at providing participants with practical knowledge and hands-on experience in architectural modeling using Autodesk Revit software. The workshop was conducted to enhance the skills of aspiring architects, engineers, and design professionals in creating efficient, accurate, and visually appealing architectural models.

The key objectives of the workshop were as follows:

- To introduce participants to Autodesk Revit and its tools for architectural modeling.
- To teach participants the fundamentals of creating 2D and 3D architectural models.
- To enable participants to efficiently use Revit's Building Information Modeling (BIM) capabilities.
- To familiarize participants with the concept of parametric modeling for design flexibility.
- To provide hands-on experience through practical exercises and real-world architectural projects.
- To enhance participants' ability to collaborate and work effectively in architectural design teams.

Trainees Attended: 71

Participants Feedback:

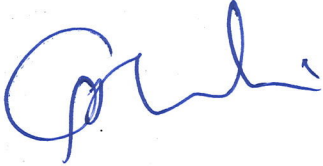

Feedback from workshop participants was overwhelmingly positive. They expressed appreciation for the well-structured curriculum, hands-on approach, and the expertise of the instructors. Participants found the workshop to be highly beneficial in improving their architectural modeling skills and gaining confidence in using Autodesk Revit.

Conclusion:

The "Architectural Modeling Using Revit Offline Training Workshop" proved to be a valuable learning experience for participants aspiring to excel in the field of architecture. By imparting essential skills and practical knowledge, the workshop successfully equipped participants to create efficient and visually appealing architectural models using Autodesk Revit. The training's emphasis on collaboration and real-world projects further enhanced the participants' preparedness to tackle architectural challenges in the industry.

PROGRAM BENEFITS:

- Familiarize yourself with the Revit interface and the essential tools to create stunning 3D models.
- Understand the concepts and principles of Building Information Modeling (BIM) and how Revit facilitates collaborative design.
- Learn to design walls, floors, roofs, doors, and windows, transforming your ideas into a detailed digital model.
- Dive into the world of structural design using Revit's powerful tools for beams, columns, and foundations.
- Master the creation of HVAC, plumbing, and electrical systems, ensuring the efficiency and sustainability of your designs.
