## PROGRAM REPORT

**Program Name:** AWS Academy Cloud Foundations Workshop

**Program Date:** 25-05-2022-31-03-2023

**Venue:** JNTUA College of Engineering, Pulivendula

### **About the Program:**

- The AWS Academy Cloud Foundations Workshop was a comprehensive training program and organized by AWS Academy, a program by Amazon Web Services (AWS), with the aim of providing participants with fundamental knowledge and practical skills in cloud computing and AWS services.
- Introducing participants to cloud computing concepts, including the benefits, deployment models, and service models.
- Providing an overview of AWS services and solutions and their applications in real-world scenarios.
- Equipping participants with the foundational skills needed to design, deploy, and manage cloud-based solutions using AWS technologies.
- Preparing participants for the AWS Certified Cloud Practitioner exam, validating their understanding of AWS cloud concepts.

**Trainees Attended:** 14

### **Participants Feedback:**

Feedback from participants was overwhelmingly positive. They appreciated the well-structured curriculum, hands-on labs, and the expertise of the instructors. Many participants mentioned that the workshop demystified cloud computing and provided them with a solid foundation to explore more advanced AWS services and certifications. Additionally, the practical projects and exam preparation resources were cited as highly beneficial.

**Conclusion:**

The AWS Academy Cloud Foundations Workshop proved to be a valuable learning experience for participants interested in cloud computing and AWS technologies. It provided them with essential knowledge, hands-on skills, and exam preparation resources to succeed in their cloud computing journey and pursue AWS certifications.

By promoting cloud literacy and AWS proficiency, the workshop played a vital role in bridging the skills gap and preparing individuals for the demands of cloud-based IT careers. As a result, participants left the workshop with increased confidence in their abilities and a strong understanding of cloud computing principles using AWS services.
