7.1.6 : Quality audits on environment and energy are regularly undertaken by the Institution and any awards received for such green campus initiatives:

Report on environmental promotional activities conducted beyond the campus

As a mandatory requirement of the curriculum, the students have to do some Socially Responsible Projects (SRP) which are aimed at bringing awareness about the environment, health and hygiene in the community. Several students have done projects related to environmental protection such as Rainwater harvesting, Solid Waste Management and Sustainability practices. Water Quality Analysis was also carried out as one of the projects to understand the quality of drinking water in the rural areas. Every year such community extension programs are being conducted focusing on environmental protection and sustainability as well as community development.

All undergraduate students shall register for NCC/NSS/ activities. A student will be required to participate in an activity for two hours in a week either in third or fourth semester. Grade shall be awarded as Satisfactory or Unsatisfactory in the mark sheet based on participation, attendance, performance, and behaviour. If a student gets an unsatisfactory grade, he/she shall repeat the above activity in the subsequent years, to complete the degree requirements.

During this community engaged program, our volunteers have been enriched through field experience and have faced the grass root realities of rural spaces. They learned from the people in villages how to lead a good life despite scarcity of resources leading to the development of a sense of social responsibility. SBSI is the best start of inculcating the sense of responsibility in the youth of today who hold the key to better future of the country. The mission of this program is to eliminate the social problems from the society as well as promoting the individual growth and this is well adopted by the young volunteers.

ANTI TREE TERMITE DRIVE

I am extremely happy to report on the activity i.e., “ANTI TREE TERMITE DRIVE” under the NSS cell unit-iii of JNTUA college of engineering the drive was initiated. Which was the great thought comes from the registrar Prof.S. Krishnaiah and the JNTUA-NSS program coordinator M. L. S. Deva Kumar garu. Under this drive all the NSS volunteers participate in this activity. In that activity they remove the termites from the trees in the JNTUA campus. The program was started on 15th April 2017 and the drive continues up to 26th April 2017. All the NSS volunteers participated more enthusiastically and clean the termites from the trees and wash the trees and painted the tree and protect the trees from the termites. The NSS program officer’s Smt. Lalitha Kumari garu and Dr. D. Dileep Kumar garu provides the things which is helpful for the drive and provides the water at the corresponding places time to time. And these officers are actively communicate with the volunteers and gather the all the volunteers every day. And successfully they removes the all the termites from the trees in the JNTUA college of engineering.

REPORT

The NSS Unit of **JNTUA College of Engineering Anantapur** arranged "Plantation programme" on 18-08- 2022.

The main purpose of tree plantation is to save the endangered environment and to beautify our life. Trees are valuable gifts of nature. They are known as the best friends of human beings. They benefit us in various ways. The lives of men and other animals and insects are inconceivable without the existence of trees in the world. All the students, faculties and non-teaching staff of the college joined in this programme and made it a huge success.

ONE WEEK SWACHH BHART SUMMER INTERNSHIP -2019

from 22nd July, 2019 to 28th July, 2019

I'm immensely happy to report about the program on "**ONE WEEK SWACHH BHART SUMMER INTERNSHIP**". It was held on 26th December, 2017 in PRASANAYA PALLI VILLAGE, ANANTAPUR DISTRICT. It was organized by NSS Unit III of JNTUA College of engineering.

Swachh Bharat Summer Internship 2019 envisions to make every Indian citizen involved in making India a Swachh nation. The unique amalgam of tradition and technology are core to the MCM philosophy and hence Swachh Bharat endeavour comes naturally to the Institute's mission. Teachers and students of MCM DAV have joined hands to make this endeavour a success. History tells us that no movement has ever been successful anywhere in the world without the involvement of young minds, particularly the students. Our students are determined to make the Swachh Bharat Mission a success and set an example for others to emulate.

During this community engaged program, our volunteers have been enriched through field experience and have faced the grass root realities of rural spaces. They learned from the people in villages how to lead a good life despite scarcity of resources leading to the development of a sense of social responsibility. SBSI is the best start of inculcating the sense of responsibility in the youth of today who hold the key to better future of the country. The mission of this program is to eliminate the social problems from the society as well as promoting the individual growth and this is well adopted by the young volunteers.

I take this opportunity to express my gratitude to Dr. Nisha Bhargava, our worthy Principal, for her valuable inputs, guidance and support during SBSI 2019. Her concern for the

environmental causes has been a constant force that propels us to do something constructively for it. I congratulate and extend my best wishes to SBSI volunteers and their mentors who have made this journey successful and memorable. Swachh Bharat Summer Internship 2019 is an innovative initiative by the Government of India that envisions the long term benefits to the country and the mankind. This venture has been received enthusiastically by the young and driven NSS volunteers. Through this community engaged program, our Interns have put their earnest efforts in the personal as well as social Swachhata. As MCM DAV has begun another session the works done under the aegis of Swachhata inspire the NSS team to make Mehr Chand Mahajan DAV College a pioneer in this social cause.

NSS students/interns are ever committed to this endeavour and have learnt how to lead a life of dignity with positive mind set and contribute to the growth of nation. The youth of the country is its greatest resource and the Swachhata Initiative uniquely moulds these young minds into a powerful force that has the potential to transform the country for the best. This program has potential to become the greatest movement toward the „Clean and Green“ nation. The NSS volunteers of the college have put their heart and soul into making the campaign of Swachhata effective on a Nation-wide level. We are the nation and like Mahatma Gandhi rightly said we should be the change we wish to see in the society!

REPORT

The NSS Unit of **JNTUA College of Engineering Anantapur** arranged “Importance of Clean and green in the campus” Programme on 16-09-2017.

Swachh Bharat Mission (SBM), Swachh Bharat Abhiyan, or Clean India Mission is a country-wide campaign initiated by the Government of India in 2014 to eliminate open defecation and improve solid waste management. It is a restructured version of the **Nirmal Bharat Abhiyan** launched in 2009 that failed to achieve its intended targets.

Prof. M.L.S.Deva Kumar, NSS Programmes Officers, Staff and students participated in this programme.

REPORT

The NSS Unit of **JNTUA College of Engineering Anantapur** arranged "Importance of Plantation to the public" on 14-07-2018.

This programme is organised on behalf of the state government. **Vanamahotsavam** lit. 'Forest festival', is an annual one-week tree-planting festival in India which is celebrated in the first week of July. By encouraging Indians to support tree planting and tending, festival organizers hope to create more forests in the country. It would provide alternative fuels, increase production of food resources, create shelter-belts around fields to increase productivity, provide food and shade for cattle, offer shade and decorative landscapes, reduce drought, and help to prevent soil erosion. The first week of July is just the right time for planting trees in most parts of India since it coincides with the monsoon.

Local Ministers, Government Officials, staff and students of the college participated in the programme
