**7.1.7: The Institution has friendly, barrier free environment**

A barrier free environmental means more than just physical access such as the building of ramps, but needs to be taken much broader. Environmental barriers often limit or prevent a person with a disability from fully participating in social, occupational and recreational activities.

Access and accessibility are some of the major concerns in the area of disability. University has taken enough measure for person with a disability to avoid the difficulty in their movement in all the campuses. Almost all the new buildings of the university and constituent units are provided with ramps to ensure ease of movement of physically challenged people to ensure that without obstacles, with dignity and independence as much as possible. This provision also creates a barrier free environment conducive to the needs of divyangjain
